

# **Web committee plan**

## **Vision :**

1. The members have the ability to create valued applications and have information enough apply for the member to assigned to multinational companies.
2. The Members know how to communicate with some and how to do professional project.

## **Mission :**

- make laravel workshop in 6 session.
- make training meetings for team to can them how to explain correctly in the workshop
- At the end of the workshop, the participants will be divided into a groups that will perform a full project with the help of the members of crew.
- make competition between team to make them know the more information
- learn a new framework as angular and react.
- Do update in the website if we needed for it.
- Learning the members how to be a head.
- Choose the best member of each meeting to motivate members constantly

- Divide members into groups and each group consists of frontend and backend developer doing a project and choosing the best project.
- Any member do at least three projects.
- doing Individual tasks allow members to be self-reliant.
- During the first recruitment ,we will choose the member that his/her knowledge is average and it must be necessary to show us a sample of his/her work in the interview .
- During the second recruitment, we will accept only the member that his/her knowledge is very good .
- doing at least 3 professional project with new idea to show this in 'سلخانه' event
